

End of Year Testing of Scottish DES CVD Risk Report

The audit "**3.CVD Risk Monitoring and Payment Report for April 2007**" is the audit that will be run on 1st April 2007 when you need to submit the April 2007 report. This shows:

- The number of patients on the CVD Risk Register at the start of the year
- The number of patients on the CVD Risk Register where all fields have been entered

This audit is also a monitoring audit and can be run at any time before 1/4/2007 to see which patients still need to be seen. Please use this audit for your End of year testing.

The searches in this audit are based on the Scottish DES CVD Risk Register as at 1/4/06, ie all active patients 45-64 years, registered before 1/4/06 who have not had blood pressure measured between 1/4/01 and 31/3/07 OR who do not have a smoking record between 1/4/01 - 31/3/07.

For a patient to have all relevant information recorded they must have a record of the following:

- BMI recorded between 1/4/2001 - 31/3/2007
- Tobacco use recorded between 1/4/2001 - 31/3/2007
- Blood pressure recorded between 1/4/2001 - 31/3/2007
- CHD or H/O heart disease recorded on or before 31/3/2007 or medical history (14Z1, 114) recorded between 1/4/2001 - 31/3/2007
- Stroke/TIA or H/O stroke/TIA recorded on or before 31/3/2007 or medical history (14Z1, 114) recorded between 1/4/2001 - 31/3/2007
- Diabetes or H/O diabetes recorded on or before 31/3/2007 or medical history (14Z1, 114) recorded between 1/4/2001 - 31/3/2007
- Hypertension or H/O hypertension recorded on or before 31/3/2007 or medical history (14Z1, 114) recorded between 1/4/2001 - 31/3/2007
- Family history of CHD recorded between 1/4/2001 - 31/3/2007
- Family history of diabetes recorded between 1/4/2001 - 31/3/2007

Please refer to the updated help file for details of the Read codes used in the audit.
