

FREE Decision Support resources

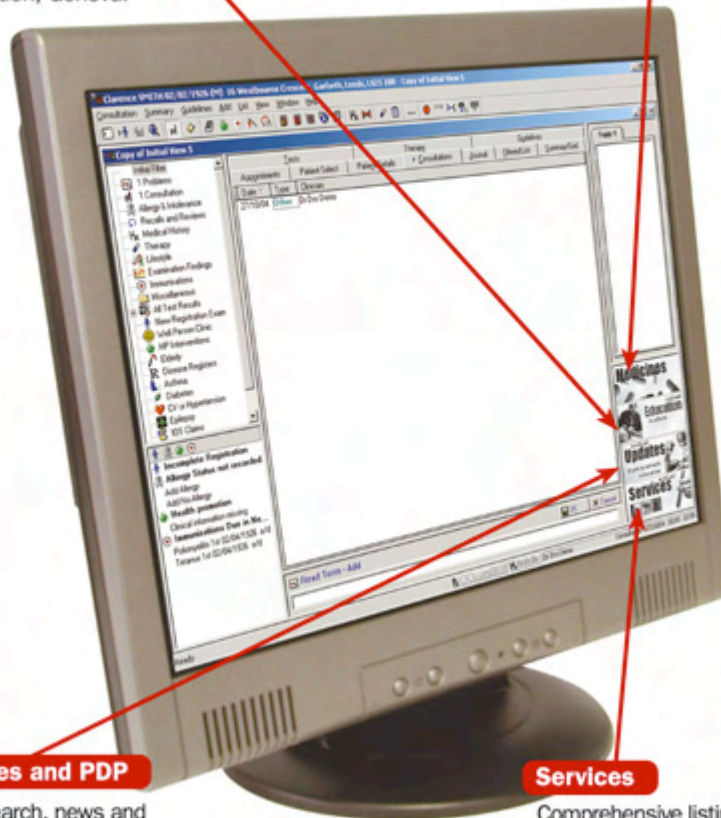

DXS Point of Care Medical Knowledge Management System has been fully integrated into Vision and provides comprehensive decision support resources for use during patient encounters. It is available **FREE** of charge to Vision users and includes information from a range of credible sources.

Patient Leaflets and Illustrations

CHIQ accredited and Prodigy validated patient leaflets on diseases, procedures and diet plus hundreds of annotated illustrations. Also travel advice from the Hospital of Tropical Diseases, London and the World Health Organisation, Geneva.

Medicine Reference

A comprehensive reference providing drug monographs, SPCs and PILs on medicines which are categorised by ingredient, pharmacological classification and therapy.

Medical Updates and PDP

PDP, medical research, news and guidelines. All articles are categorised and easy to find.

Services

Comprehensive listings of support groups, societies and organisations specialising in general health improvement.
