

Advanced LED Sign Technology

Vision Patient Call Display (Vision PCD), enables delivery of accurate and reliable information to patients directly from the clinician's workstation, guaranteeing fast, professional and effective communication.

Practice Benefits

- Reminds patients to book in on arrival
- The call display links to your appointment system as easily as connecting another terminal to the network
- Doctors save valuable time calling patients direct from their consulting rooms without having to call reception or walk to the waiting area
- Previously noisy waiting rooms are noticeably quieter
- Intuitive easy to learn software written by your appointments provider
- Receptionists have more time to handle other tasks

Patient Benefits

- An audio signal supports the visible text message to attract the attention of patients
- Patients can clearly see their name, their doctor's name and consulting room number, a major benefit to the deaf or hearing impaired
- The automatic recall facility will repeat the patient's name until cancelled by the doctor
- Lets patients know when a doctor has been called out on an emergency or is running late
