Public Health England and Health Protection Scotland Report Update 2016/17

Summary of Changes

The following audits for both Public Health England (PHE) and Health Protection Scotland (HPS) have been updated for you via CentraStage:

PHE

- **Seasonal Influenza**, see [PHE Seasonal Influenza 2016/17](#) (page 2)
- **MMR Catchup**, see [PHE MMR Catchup 2016](#) (page 5)
- **Shingles Vaccine**, see [PHE Shingles Vaccine Uptake 2016/17](#) (page 7)
- **Ethnicity** - Patients without a 2001 Census Codes Read code recorded are now reported in the **Patient with any other ethnicity code** category for the following reports:
 - **Rotavirus 2013-17**
 - **Annual Pertussis 2015-16**
 - **Meningitis B 2015-17**
 - **Shingles 2015-16**

HPS

- **Seasonal Influenza**, see [HPS Seasonal Influenza 2016/17](#) (page 11)
- **Shingles Vaccine**, see [HPS Shingles Vaccine Uptake 2016/17](#) (page 15)

Public Health England (PHE)

Public Health England results collected automatically can be viewed by logging on to the Immform website.

 **PHE** - If for any reason you do not want your PHE data exported, you need to delete the relevant audits. Do not remove the recall audits as they facilitate your ability to call your patients. Please refer to *If you do not want to send electronic reports to ImmForm* http://www.inpshelp.co.uk/DLM490/Clinical_Audit/index.htm#61851 for details.

PHE Seasonal Influenza 2016/17

The vaccine uptake reports have now been split into two extracts:

- GP Flu, see *GP Flu Data Collected* (page 2)
- GP Flu Childhood, see *GP Flu Childhood Data Collected* (page 4)

The collection dates, as in previous years, are:

- Weekly, see *PHE Weekly Seasonal Flu Collection Dates 2016/17* (page 4)
- Monthly, see *PHE Monthly Seasonal Flu Collection Dates 2016/17* (page 5)

Patients without a 2001 Census Codes Read code recorded is now reported in the **Patient with any other ethnicity code** category

GP Flu Data Collected

 **Remember** - You can view the patients included from the associated clinical audits.

The following data is included in the GP Flu extract:

- Number of patients registered
 - How many of those vaccinated
 - How many of those refused or declined vaccination
 - How many vaccinated in schools
 - How many vaccinated in pharmacies
 - How many vaccinated in other healthcare settings
- Number of patients with Chronic Heart Disease
 - How many vaccinated
- Number of patients with Chronic Respiratory Disease
 - How many vaccinated
- Number of patients with Chronic Kidney Disease
 - How many vaccinated
- Number of patients with Chronic Liver Disease
 - How many vaccinated
- Number of patients with Diabetes
 - How many vaccinated
- Number of patients with Immunosuppression
 - How many vaccinated
- Number of patients with Chronic Neurological Disease (including Stroke/TIA, Cerebral Palsy or MS)
 - How many vaccinated
- Number of patients with Asplenia or dysfunction of the spleen
 - How many vaccinated
- Number of patients with morbid obesity (BMI equal to or over 40) in one or more at risk groups
 - How many vaccinated
- Number of patients with morbid obesity (BMI equal to or over 40) in no other at risk groups
 - How many vaccinated
- Seasonal Flu vaccine uptake for carers
 - How many vaccinated
- Number of patients registered by ethnicity (excluding 'no other risk' pregnant women and 'no other risk' patients with a BMI equal to or over 40)
 - How many in each group vaccinated
- Number of pregnant women registered by ethnicity

- How many in each group vaccinated

Calculated from the extracted data

- Percentage of patients vaccinated in each group

GP Flu Childhood Data Collected

The following patients are included in the 2016/17 GP Flu Childhood extract:

 **Remember** - You can view the patients included from the associated clinical audits.

- All patients born between 1st September 2008 and 31st August 2014 regardless of where the vaccination took place.

PHE Weekly Seasonal Flu Collection Dates 2016/17

Weekly data is extracted on the Monday of each week for data up to midnight the Sunday before.

The weekly collections are made on the following dates:

Week Number	Data up to date	Submit Date
Week 36	11/09/2016	12/09/2016
Week 37	18/09/2016	19/09/2016
Week 38	25/09/2016	26/09/2016
Week 39	02/10/2016	03/10/2016
Week 40	09/10/2016	10/10/2016
Week 41	16/10/2016	17/10/2016
Week 42	23/10/2016	24/10/2016
Week 43	30/10/2016	31/10/2016
Week 44	06/11/2016	07/11/2016
Week 45	13/11/2016	14/11/2016
Week 46	20/11/2016	21/11/2016
Week 47	27/11/2016	28/11/2016
Week 48	04/12/2016	05/12/2016
Week 49	11/12/2016	12/12/2016
Week 50	18/12/2016	19/12/2016
Week 51	25/12/2016	26/12/2016
Week 52	01/01/2017	02/01/2017
Week 01	08/01/2017	09/01/2017
Week 02	15/01/2017	16/01/2017
Week 03	22/01/2017	23/01/2017
Week 04	29/01/2017	30/01/2017

PHE Monthly Seasonal Flu Collection Dates 2016/17

The monthly collection includes data recorded up to midnight on the last day of the previous month.

The monthly collections are made for the following months only:

Month	Data up to Date	Submit Date
October 2016	Mon 31/10/2016	Tue 01/11/2016
November 2016	Wed 30/11/2016	Thurs 01/12/2016
December 2016	Sat 31/12/2016	Sun 01/01/2017
January 2017	Tue 31/01/2017	Wed 01/02/2017

PHE MMR Catchup 2016

This is now a single annual extract scheduled for 1st September 2016.

The extract includes data recorded from 1st September 2015 to 31st August 2016 for:

- All patients born between 1st September 2013 and 31st August 2014 their MMR vaccination status and their sex
- All patients born between 1st September 2012 and 31st August 2013 their MMR vaccination status and their sex
- All patients born between 1st September 2011 and 31st August 2012 their MMR vaccination status and their sex
- All patients born between 1st September 2010 and 31st August 2011 their MMR vaccination status and their sex
- All patients born between 1st September 2009 and 31st August 2010 their MMR vaccination status and their sex
- All patients born between 1st September 2008 and 31st August 2009 their MMR vaccination status and their sex
- All patients born between 1st September 2007 and 31st August 2008 their MMR vaccination status and their sex
- All patients born between 1st September 2006 and 31st August 2007 their MMR vaccination status and their sex
- All patients born between 1st September 2005 and 31st August 2006 their MMR vaccination status and their sex
- All patients born between 1st September 2004 and 31st August 2005 their MMR vaccination status and their sex
- All patients born between 1st September 2003 and 31st August 2004 their MMR vaccination status and their sex
- All patients born between 1st September 2002 and 31st August 2003 their MMR vaccination status and their sex
- All patients born between 1st September 2001 and 31st August 2002 their MMR vaccination status and their sex
- All patients born between 1st September 2000 and 31st August 2001 their MMR vaccination status and their sex
- All patients born between 1st September 1999 and 31st August 2000 their MMR vaccination status and their sex
- All patients born between 1st September 1998 and 31st August 1999 their MMR vaccination status and their sex
- All patients born between 1st September 1997 and 31st August 1998 their MMR vaccination status and their sex
- All patients born between 1st September 1996 and 31st August 1997 their MMR vaccination status and their sex
- All patients born between 1st September 1995 and 31st August 1996 their MMR vaccination status and their sex
- All patients born between 1st September 1994 and 31st August 1995 their MMR vaccination status and their sex

- All patients born between 1st September 1993 and 31st August 1994 their MMR vaccination status and their sex
- All patients born between 1st September 1992 and 31st August 1993 their MMR vaccination status and their sex
- All patients born between 1st September 1991 and 31st August 1992 their MMR vaccination status and their sex
- All patients born between 1st September 1990 and 31st August 1991 their MMR vaccination status and their sex
- All patients born between 1st September 1989 and 31st August 1990 their MMR vaccination status and their sex
- All patients born between 1st September 1988 and 31st August 1989 their MMR vaccination status and their sex
- All patients born between 1st September 1987 and 31st August 1988 their MMR vaccination status and their sex
- All patients born between 1st September 1986 and 31st August 1987 their MMR vaccination status and their sex
- All patients born between 1st September 1985 and 31st August 1986 their MMR vaccination status and their sex

PHE Shingles Vaccine Uptake 2016/17

The shingles vaccination program, started on the 1st September 2013, has been updated for 2016/17.

Patients without a 2001 Census Codes Read code recorded is now reported in the **Patient with any other ethnicity code** category.

PHE Shingles Vaccine Uptake 2016/17 Data Collected

 **Remember** - You can view the patients included from the associated clinical audits.

The following figures are extracted:

- Number of patients registered aged 70 on 1st September 2013 (born between 02/09/1945 - 01/09/1946)
- Number of patients registered aged 70 on 1st September 2013 (born between 02/09/1945 - 01/09/1946) vaccinated
- Number of patients registered aged 70 on 1st September 2013 (born between 02/09/1945 - 01/09/1946) immunosuppressed
- Number of patients registered aged 70 on 1st September 2013 (born between 02/09/1945 - 01/09/1946) contraindicated for other reasons
- Number of patients registered aged 70 on 1st September 2013 (born between 02/09/1945 - 01/09/1946) contraindicated vaccinated
- Number of patients registered aged 70 on 1st September 2013 (born between 02/09/1945 - 01/09/1946) declined or refused

- Number of patients registered aged 78 on 1st September 2013 (born between 02/09/1937 - 01/09/1938)
- Number of patients registered aged 78 on 1st September 2013 (born between 02/09/1937 - 01/09/1938) vaccinated
- Number of patients registered aged 78 on 1st September 2013 (born between 02/09/1937 - 01/09/1938) immunosuppressed
- Number of patients registered aged 78 on 1st September 2013 (born between 02/09/1937 - 01/09/1938) contraindicated for other reasons
- Number of patients registered aged 78 on 1st September 2013 (born between 02/09/1937 - 01/09/1938) contraindicated vaccinated
- Number of patients registered aged 78 on 1st September 2013 (born between 02/09/1937 - 01/09/1938) declined or refused

The following figures are extracted and then totalled with the patient's sex and ethnicity (where recorded):

- Registered patients born between 02/09/1933 - 01/09/1934
- Registered patients born between 02/09/1933 - 01/09/1934 vaccinated
- Registered patients born between 02/09/1934 - 01/09/1935
- Registered patients born between 02/09/1934 - 01/09/1935 vaccinated
- Registered patients born between 02/09/1935 - 01/09/1936
- Registered patients born between 02/09/1935 - 01/09/1936 vaccinated
- Registered patients born between 02/09/1936 - 01/09/1937
- Registered patients born between 02/09/1936 - 01/09/1937 vaccinated
- Registered patients born between 02/09/1937 - 01/09/1938
- Registered patients born between 02/09/1937 - 01/09/1938 vaccinated
- Registered patients born between 02/09/1938 - 01/09/1939
- Registered patients born between 02/09/1938 - 01/09/1939 vaccinated
- Registered patients born between 02/09/1939 - 01/09/1940
- Registered patients born between 02/09/1939 - 01/09/1940 vaccinated
- Registered patients born between 02/09/1940 - 01/09/1941
- Registered patients born between 02/09/1940 - 01/09/1941 vaccinated
- Registered patients born between 02/09/1941 - 01/09/1942
- Registered patients born between 02/09/1941 - 01/09/1942 vaccinated
- Registered patients born between 02/09/1942 - 01/09/1943
- Registered patients born between 02/09/1942 - 01/09/1943 vaccinated
- Registered patients born between 02/09/1943 - 01/09/1944
- Registered patients born between 02/09/1943 - 01/09/1944 vaccinated
- Registered patients born between 02/09/1944 - 01/09/1945
- Registered patients born between 02/09/1944 - 01/09/1945 vaccinated
- Registered patients born between 02/09/1945 - 01/09/1946
- Registered patients born between 02/09/1945 - 01/09/1946 vaccinated
- Registered patients born between 02/09/1946 - 01/09/1947
- Registered patients born between 02/09/1946 - 01/09/1947 vaccinated
- Registered patients born between 02/09/1947 - 01/09/1948
- Registered patients born between 02/09/1947 - 01/09/1948 vaccinated
- Registered patients born between 02/09/1948 - 01/09/1949
- Registered patients born between 02/09/1948 - 01/09/1949 vaccinated

Calculated from the extracted data

- Percentage of patients vaccinated in each group

 **Note** - If for any reason you do not want your shingles data exported, you need to delete the Shingles Vaccination Uptake 2016-17 audits. Do not remove the recall audits as they facilitate your ability to call your patients. Please refer to *If you do not want to send electronic reports to ImmForm* http://www.inpshep.co.uk/DLM490/Clinical_Audit/index.htm#61851 for details.

PHE Shingles Vaccine Uptake 2016/17 Collection Dates

Your Shingles Vaccine data is reported monthly. The data is extracted on the first working day of each month and includes data recorded up to midnight on the last day of the previous month.

The monthly collection dates are:

Month	Data up to Date	Submit Date
September 2016	30/09/2016	01/10/2016
October 2016	31/10/2016	01/11/2016
November 2016	30/11/2016	01/12/2016
December 2016	31/12/2016	01/01/2017
January 2017	31/01/2017	01/02/2017
February 2017	28/02/2017	01/03/2017
March 2017	31/03/2017	01/04/2017
April 2017	30/04/2017	01/05/2017
May 2017	31/05/2017	01/06/2017
June 2017	30/06/2017	01/07/2017
July 2017	31/07/2017	01/08/2017
August 2017	31/08/2017	01/09/2017

Health Protection Scotland (HPS)

Health Protection Scotland (HPS) results are collected automatically via eLinks as part of your daily scheduled Clinical Audit process.

 **HPS** - If for any reason you do not want your HPS data exported, you need to delete the HPS audits. Do not remove the recall audits as they facilitate your ability to call your patients. Please refer to *If you do not want to send electronic reports to eLinks* http://www.inpshep.co.uk/DLM500/Clinical_Audit/index.htm#61853 for details.

 **Important** - It is vital that your GP Communicator machine is left on for the eLinks process to run in the early hours of each Monday morning, including public holidays, as the collection is expected to run before 8am.

HPS Seasonal Influenza 2016/17

The collection dates for seasonal flu have been updated for 2016/17 via CentraStage.

HPS Seasonal Flu data Collected

 **Remember** - You can view the patients included from the associated clinical audits.

The following data is included in the GP Flu extract:

- Number of patients registered
 - How many of those vaccinated
 - How many of those refused or declined vaccination
 - How many vaccinated in schools
 - How many vaccinated in pharmacies
 - How many vaccinated in other healthcare settings
- Number of patients with Chronic Heart Disease
 - How many vaccinated
- Number of patients with Chronic Respiratory Disease
 - How many vaccinated
- Number of patients with Chronic Kidney Disease
 - How many vaccinated
- Number of patients with Chronic Liver Disease
 - How many vaccinated
- Number of patients with Diabetes
 - How many vaccinated
- Number of patients with Immunosuppression
 - How many vaccinated
- Number of patients with Chronic Neurological Disease (including Stroke/TIA, Cerebral Palsy or MS)
 - How many vaccinated
- Number of patients with Asplenia or dysfunction of the spleen
 - How many vaccinated
- Number of patients with morbid obesity (BMI equal to or over 40) in one or more at risk groups
 - How many vaccinated
- Number of patients with morbid obesity (BMI equal to or over 40 or childhood obesity) in no other at risk groups
 - How many vaccinated
- Seasonal Flu vaccine uptake for carers
 - How many vaccinated

- Number of patients registered by ethnicity (excluding 'no other risk' pregnant women and 'no other risk' patients with a BMI equal to or over 40)
 - How many in each group vaccinated
- Number of pregnant women registered by ethnicity
 - How many in each group vaccinated

For the following patient groups:

- Aged 65 and over as of 1st September 2016
- Aged 2 years to under 16 years as of 1st September 2016
- Aged 16 to under 65 as of 1st September 2016
- Aged 6 months to under 2 years as of 1st September 2016
- Aged 2 years (born between 2nd September 2013 - 1st September 2014)
- Aged 3 years (born between 2nd September 2012 - 1st September 2013)
- Aged 4 years (born between 2nd September 2011 - 1st September 2012)
- Aged 5 years (born between 2nd September 2010 - 1st September 2011)
- Aged 6 years (born between 2nd September 2009 - 1st September 2010)
- Aged 7 years (born between 2nd September 2008 - 1st September 2009)
- Aged 8 years (born between 2nd September 2007 - 1st September 2008)
- Aged 9 years (born between 2nd September 2006 - 1st September 2007)
- Aged 10 years (born between 2nd September 2005 - 1st September 2006)
- Aged 11 years (born between 2nd September 2004 - 1st September 2005)
- Aged 12 years (born between 2nd September 2003 - 1st September 2004)
- Aged 13 years (born between 2nd September 2002 - 1st September 2003)
- Aged 14 years (born between 2nd September 2001 - 1st September 2002)
- Aged 15 years (born between 2nd September 2000 - 1st September 2001)
- Aged 16 years (born between 2nd September 1999 - 1st September 2000)
- Aged 17 years (born between 2nd September 1998 - 1st September 1999)
- Aged 18 years (born between 2nd September 1997 - 1st September 1998)

Calculated from the extracted data

- Percentage of patients vaccinated in each group

HPS Weekly Seasonal Flu Collection Dates 2016/17

Weekly data is extracted on the Monday of each week for data up to midnight the Sunday before.

The weekly collections are made on the following dates:

Week Number	Data up to date	Submit Date
Week 35	04/09/2016	05/09/2016
Week 36	11/09/2016	12/09/2016
Week 37	18/09/2016	19/09/2016
Week 38	25/09/2016	26/09/2016
Week 39	02/10/2016	03/10/2016
Week 40	09/10/2016	10/10/2016

HPS Shingles Vaccine Update 2016/17

The shingles vaccination program has been updated for 2016/17:

HPS Shingles Vaccine Uptake 2016/17 Data Collected

 **Remember** - You can view the patients included from the associated clinical audits.

The following figures are extracted:

- Number of patients registered aged 70 on 1st September 2013 (born between 02/09/1945 - 01/09/1946)
- Number of patients registered aged 70 on 1st September 2013 (born between 02/09/1945 - 01/09/1946) vaccinated
- Number of patients registered aged 70 on 1st September 2013 (born between 02/09/1945 - 01/09/1946) immunosuppressed
- Number of patients registered aged 70 on 1st September 2013 (born between 02/09/1945 - 01/09/1946) contraindicated for other reasons
- Number of patients registered aged 70 on 1st September 2013 (born between 02/09/1945 - 01/09/1946) contraindicated vaccinated
- Number of patients registered aged 70 on 1st September 2013 (born between 02/09/1945 - 01/09/1946) declined or refused

- Number of patients registered aged 76 on 1st September 2013 (born between 02/09/1939 - 01/09/1940)
- Number of patients registered aged 76 on 1st September 2013 (born between 02/09/1939 - 01/09/1940) vaccinated
- Number of patients registered aged 76 on 1st September 2013 (born between 02/09/1939 - 01/09/1940) immunosuppressed
- Number of patients registered aged 76 on 1st September 2013 (born between 02/09/1939 - 01/09/1940) contraindicated for other reasons
- Number of patients registered aged 76 on 1st September 2013 (born between 02/09/1939 - 01/09/1940) contraindicated vaccinated
- Number of patients registered aged 76 on 1st September 2013 (born between 02/09/1939 - 01/09/1940) declined or refused

The following figures are extracted and then totalled with the patient's sex and ethnicity (where recorded):

- Registered patients born between 02/09/1933 - 01/09/1934
- Registered patients born between 02/09/1933 - 01/09/1934 vaccinated
- Registered patients born between 02/09/1934 - 01/09/1935
- Registered patients born between 02/09/1934 - 01/09/1935 vaccinated
- Registered patients born between 02/09/1935 - 01/09/1936
- Registered patients born between 02/09/1935 - 01/09/1936 vaccinated
- Registered patients born between 02/09/1936 - 01/09/1937

- Registered patients born between 02/09/1936 - 01/09/1937 vaccinated
- Registered patients born between 02/09/1937 - 01/09/1938
- Registered patients born between 02/09/1937 - 01/09/1938 vaccinated
- Registered patients born between 02/09/1938 - 01/09/1939
- Registered patients born between 02/09/1938 - 01/09/1939 vaccinated
- Registered patients born between 02/09/1939 - 01/09/1940
- Registered patients born between 02/09/1939 - 01/09/1940 vaccinated
- Registered patients born between 02/09/1940 - 01/09/1941
- Registered patients born between 02/09/1940 - 01/09/1941 vaccinated
- Registered patients born between 02/09/1941 - 01/09/1942
- Registered patients born between 02/09/1941 - 01/09/1942 vaccinated
- Registered patients born between 02/09/1942 - 01/09/1943
- Registered patients born between 02/09/1942 - 01/09/1943 vaccinated
- Registered patients born between 02/09/1943 - 01/09/1944
- Registered patients born between 02/09/1943 - 01/09/1944 vaccinated
- Registered patients born between 02/09/1944 - 01/09/1945
- Registered patients born between 02/09/1944 - 01/09/1945 vaccinated
- Registered patients born between 02/09/1945 - 01/09/1946
- Registered patients born between 02/09/1945 - 01/09/1946 vaccinated
- Registered patients born between 02/09/1946 - 01/09/1947
- Registered patients born between 02/09/1946 - 01/09/1947 vaccinated
- Registered patients born between 02/09/1947 - 01/09/1948
- Registered patients born between 02/09/1947 - 01/09/1948 vaccinated
- Registered patients born between 02/09/1948 - 01/09/1949
- Registered patients born between 02/09/1948 - 01/09/1949 vaccinated

Calculated from the extracted data

- Percentage of patients vaccinated in each group

 **Note** - If for any reason you do not want your HPS data exported, you need to delete the HPS audits. Do not remove the recall audits as they facilitate your ability to call your patients. Please refer to *If you do not want to send electronic reports to eLinks* http://www.inshelp.co.uk/DLM500/Clinical_Audit/index.htm#61853 for details.

HPS Shingles Vaccine Uptake 2016/17 Collection Dates

Your Shingles Vaccine data is reported monthly. The data is extracted on the first working day of each month and includes data recorded up to midnight on the last day of the previous month.

The monthly collection dates are:

Month	Data up to Date	Submit Date
September 2016	30/09/2016	01/10/2016
October 2016	31/10/2016	01/11/2016
November 2016	30/11/2016	01/12/2016
December 2016	31/12/2016	01/01/2017
January 2017	31/01/2017	01/02/2017
February 2017	29/02/2017	01/03/2017
March 2017	31/03/2017	01/04/2017
April 2017	30/04/2017	01/05/2017
May 2017	31/05/2017	01/06/2017
June 2017	30/06/2017	01/07/2017
July 2017	31/07/2017	01/08/2017
August 2017	31/08/2017	01/09/2017
