
Scottish Cervical Cytology Targets – (INPS)

Version 1, 15/09/2003

Total Practice population – Scottish Cervical Cytology Targets (INPS)

All active registered patients

Women aged 21-60 – Scottish Cervical Cytology Targets (INPS)

Female patients between 21 and 60

Women excluded from Target using exclusion flag on Cytology SDA – Scottish Cervical Cytology Targets (INPS)

Female patients between 21 and 60 whose *latest* Smears entry (see READ code list in Women who have had a smear – Scottish Cervical Cytology Targets (INPS) on page 4) has *Exclude from Target Report* checked.

Reason: Hysterectomy – Scottish Cervical Cytology Targets (INPS)

Female patients between 21 and 60 whose *latest* Smear entry (see READ code list in Women who have had a smear – Scottish Cervical Cytology Targets (INPS) on page 4) has *Exclude from Target Report* checked and the *Reason for Exclusion* is Hysterectomy.

Reason: Refused – Scottish Cervical Cytology Targets (INPS)

Female patients between 21 and 60 whose *latest* Smear entry (see READ code list in Women who have had a smear – Scottish Cervical Cytology Targets (INPS) on page 4) has *Exclude from Target Report* checked and the *Reason for Exclusion* is Patient refusal.

Reason: Follow-up Stopped – Scottish Cervical Cytology Targets (INPS)

Female patients between 21 and 60 whose *latest* Smear entry (see READ code list in Women who have had a smear – Scottish Cervical Cytology Targets (INPS) on page 4) has *Exclude from Target Report* checked and the *Reason for Exclusion* is Follow-up Stopped

Reason: Considered Inappropriate – Scottish Cervical Cytology Targets (INPS)

Female patients between 21 and 60 whose *latest* Smear entry (see READ code list in Women who have had a smear – Scottish Cervical Cytology Targets (INPS) on page 4) has *Exclude from Target Report* checked and the *Reason for Exclusion* is Considered inappropriate.

Women with hysterectomy recorded but NO exclusion flag - Scottish Cervical Cytology Targets (INPS)

Female patients between 21 and 60 whose *latest* Smears entry has *Exclude from Target Report* unchecked, but have one of the following READ codes recorded:

- 7E04 Abdominal excision of uterus
- 7E05 Vaginal excision of uterus
- 1599 H/O: hysterectomy
- 685H No smear - benign hysterectomy

Women for whom a smear is inappropriate but have NO exclusion flag - Scottish Cervical Cytology Targets (INPS)

Female patients aged between 25.-64 whose latest Smear entry *Exclude from Target Reports* is unchecked, and who have one of the following READ codes recorded:

- 685G No smear – not sexually active
- 685I No smear – amputation of cervix
- 685K No smear - no cervix

Women 21-60 eligible for Target – Scottish Cervical Cytology Targets (INPS)

Female patients between 21 and 60 all reasons above excluded - excluding those whose *latest* Smears entry has *Exclude from Target Report* checked or who have one of the following READ codes:

- 7E04 Abdominal excision of uterus
- 7E05 Vaginal excision of uterus
- 1599 H/O: hysterectomy
- 685H No smear - benign hysterectomy

Women who have never had a smear – Scottish Cervical Cytology Targets (INPS)

Women eligible for target who do not have any of the following READ codes:

- 4K2.. 00 Cervical smear result
- 4K2.. 11 Dyskaryosis on cervical smear
- 4K2.. 12 Dysplasia (dysk.) on cerv. smear
- 4K21 Cervical smear:inadequate spec
- 4K22 Cervical smear: negative
- 4K22.11 Smear NAD: no endocervic cells
- 4K23 Cerv. smear: mild dyskaryosis
- 4K23. 11 CIN I - mild dyskaryosis
- 4K24 Cerv. smear: severe dyskaryosis
- 4K24. 11 CIN III - severe dyskaryosis
- 4K25 Cerv. smear: sever dysk. ?inv. ca
- 4K26 Cervical smear: ?gland neopl.
- 4K27 Cervical smear: atrophic change
- 4K27. 11 Atrophic change on cerv.smear
- 4K28 Cerv. smear: mod. dyskaryosis
- 4K28. 11 CIN II - moderate dyskaryosis
- 4K29 Cerv. smear: borderline changes
- 4K2A Cervical smear endocervical cells present
- 4K2B Cervical smear endocervical cells absent
- 4K2C Smear NAD - no endocervical cells
- 4K2Z Cervical smear result NOS
- 4K2Z. 11 Nuclear abnormality on smear
- 685 Cervical neoplasia screening
- 685..11 Cervical cytology screen
- 685.. 12 Cervical smear screen
- 6859 Ca cervix - screen done
- 6859. 11 Cervical cytology examination
- 685B Ca cervix screen normal
- 685C Ca cervix screen abnormal
- 685D Ca cervix screen + fee claim
- 685A Ca cervix screen - no result yet
- 685P HPV - Human papillomavirus test positive
- 685Q HPV - Human papillomavirus test negative
- 685Z Ca cervix screen NOS

4K3.. Cervical smear - inflam. change
 4K31 Cervical smear - no inflammation
 4K32 Cervical smear - severe inflamm.
 4K33 Cervical smear - trichomonas
 4K34. 11 Cervical smear - candida
 4K35 Cerv. smear - viral infl. upsp.
 4K35.11 Viral changes on cerv. smear
 4K36 Cervical - wart virus
 4K36. 11 Herpes: cervical smear
 4K36. 12 HPV changes: cervical smear
 4K37 Cervical smear - herpes
 4K38 Cervical smear - actinomyces
 4K39 Cervical smear - gardnerella
 4K3A Cervical smear: koilocytosis
 4K3B Cervical smear - mild inflammation
 4K3C Cervical smear - moderate inflammation
 4K3D HPV - Human papillomavirus test positive
 4K3E HPV - Human papillomavirus test negative
 4K3Z Cervical smear - inflam. NOS
 7E2A0 Exam female genital tract under anaesth & papanicolau smear
 7E2A2 Papanicolau smear NEC
 R150 [D] Nonspecific abnormal Papanicolaou cervical smear
 R151 [D] Nonspecific abnormal Papanicolaou smer of other origin

Women who have had a smear – Scottish Cervical Cytology Targets (INPS)

Women eligible for target whose Smear record with the latest entry *Exclude from Target Report* is not checked and any of the following READ codes:

4K2.. 00 Cervical smear result
 4K2.. 11 Dyskaryosis on cervical smear
 4K2.. 12 Dysplasia (dysk.) on cerv. smear
 4K21 Cervical smear: inadequate spec
 4K22 Cervical smear: negative
 4K22.11 Smear NAD: no endocervic cells
 4K23 Cerv. smear: mild dyskaryosis
 4K23. 11 CIN I - mild dyskaryosis
 4K24 Cerv. smear: severe dyskaryosis

4K24. 11 CIN III - severe dyskaryosis
4K25 Cerv. smear: sever dysk. ?inv. ca
4K26 Cervical smear: ?gland neopl.
4K27 Cervical smear: atrophic change
4K27. 11 Atrophic change on cerv.smear
4K28 Cerv. smear: mod. dyskaryosis
4K28. 11 CIN II - moderate dyskaryosis
4K29 Cerv. smear: borderline changes
4K2A Cervical smear endocervical cells present
4K2B Cervical smear endocervical cells absent
4K2C Smear NAD - no endocervical cells
4K2Z Cervical smear result NOS
4K2Z. 11 Nuclear abnormality on smear
685 Cervical neoplasia screening
685..11 Cervical cytology screen
685.. 12 Cervical smear screen
6859 Ca cervix - screen done
6859. 11 Cervical cytology examination
685B Ca cervix screen normal
685C Ca cervix screen abnormal
685D Ca cervix screen + fee claim
685A Ca cervix screen - no result yet
685P HPV - Human papillomavirus test positive
685Q HPV - Human papillomavirus test negative
685Z Ca cervix screen NOS
4K3.. Cervical smear - inflam. change
4K31 Cervical smear - no inflammation
4K32 Cervical smear - severe inflamm.
4K33 Cervical smear - trichomonas
4K34. 11 Cervical smear - candida
4K35 Cerv. smear - viral infl. upsp.
4K35.11 Viral changes on cerv. smear
4K36 Cervical - wart virus
4K36. 11 Herpes: cervical smear
4K36. 12 HPV changes: cervical smear
4K37 Cervical smear - herpes
4K38 Cervical smear - actinomyces
4K39 Cervical smear - gardnerella

4K3A Cervical smear: koilocytosis
4K3B Cervical smear - mild inflammation
4K3C Cervical smear - moderate inflammation
4K3D HPV - Human papillomavirus test positive
4K3E HPV - Human papillomavirus test negative
4K3Z Cervical smear - inflam. NOS
7E2A0 Exam femal genital tract under anaesth & papanicolau smear
7E2A2 Papanicolau smear NEC
R150 [D] Nonspecific abnormal Papanicolaou cervical smear
R151 [D] Nonspecific abnormal Papanicolaou smear of other origin

Women who have NOT had a smear in last 5.5 years – Scottish Cervical Cytology Targets (INPS)

Women eligible for target who do NOT have a valid READ code (see READ code list in Women who have had a smear – Scottish Cervical Cytology Targets (INPS) on page 4) in the last 5.5 years and the latest entry *Exclude from Target Report* is not checked.

Reminder text: This lady has not had a smear in the last 5.5 years

Women who have NOT had a smear in last 5.5 years and non-responders – Scottish Cervical Cytology Targets (INPS)

Women eligible for target who do NOT have a valid Read code (see READ code list in Women who have had a smear – Scottish Cervical Cytology Targets (INPS) on page 4) in the last 5.5 years and the latest entry *Exclude from Target Report* is not checked, and who are recorded as non-responders with one or more of the following READ codes:

6857 Ca cervix screen - not attended
6857. 11 Cervical smear non-responder

Women who have had a smear in last 5.5 years – Scottish Cervical Cytology Targets (INPS)

Women eligible for target who have any of the valid Read codes (see READ code list in Women who have had a smear – Scottish Cervical Cytology Targets (INPS) on page 4) in the last 5.5 years and the latest entry *Exclude from Target Report* is not checked.

Women who have had an adequate smear in last 5.5 years – Scottish Cervical Cytology Targets (INPS)

Women eligible for target who have any of the valid Read codes (see READ code list in Women who have had a smear – Scottish Cervical Cytology Targets (INPS) on page 4) in the last 5.5 years and the latest entry *Exclude from Target Report* is not checked and adequate equals *Yes* in List, Cytology.

Women who have not had an adequate smear in last 5.5 years – Scottish Cervical Cytology Targets (INPS)

Women eligible for target who have any of the valid Read codes (see READ code list in Women who have had a smear – Scottish Cervical Cytology Targets (INPS) on page 4) in the last 5.5 years and the latest entry *Exclude from Target Report* is not checked and adequate equals *No* in List, Cytology.

Reminder text: Last smear in last 5.5 years was NOT adequate

Women who have not had a smear in last 3 years – Scottish Cervical Cytology Targets (INPS)

Women eligible for target who do not have a valid Read code (see READ code list in Women who have had a smear – Scottish Cervical Cytology Targets (INPS) on page 4) in the last 3 years.

Women who have NOT had a smear in last 3 years and non-responders - Scottish Cervical Cytology Targets (INPS)

Women eligible for target who do not have a valid Read code (see READ code list in Women who have had a smear – Scottish Cervical Cytology Targets (INPS) on page 4) in the last 3 years and who are recorded as non-responders with one or more of the following READ codes:

6857 Ca cervix screen - not attended

6857.11 Cervical smear non-responder

Women who have had a smear in the last 3 years - Scottish Cervical Cytology Targets (INPS)

Women eligible for target who have a valid Read code (see READ code list in Women who have had a smear – Scottish Cervical Cytology Targets (INPS) on page 4) in the last 3 years and the latest entry *Exclude from Target Report* is not checked.

Women whose last smear in last 3 years was adequate – Scottish Cervical Cytology Targets (INPS)

Women eligible for target who have a valid Read code (see READ code list in Women who have had a smear – Scottish Cervical Cytology Targets (INPS) on page 4) in the last 3 years and the latest entry *Exclude from Target Report* is not checked and adequate equals *Yes* in List, Cytology.

Women whose last smear in last 3 years was NOT adequate – Scottish Cervical Cytology Targets (INPS)

Women eligible for target who have a valid Read code (see READ code list in Women who have had a smear – Scottish Cervical Cytology Targets (INPS) on page 4) in the last 3 years and the latest entry *Exclude from Target Report* is not checked and adequate equals *No* in List, Cytology

Women who have had a hysterectomy – Scottish Cervical Cytology Targets (INPS)

Women eligible for target with one of the following READ codes:

- 7E04 Abdominal excision of uterus
- 7E05 Vaginal excision of uterus
- 1599 H/O: hysterectomy
- 685H No smear - benign hysterectomy

Women who have had a hysterectomy and had a vaginal vault smear ever – Scottish Cervical Cytology Targets (INPS)

Women eligible for target with one or more of the following READ codes:

- 7E04 Abdominal excision of uterus
- 7E05 Vaginal excision of uterus
- 1599 H/O: hysterectomy
- 685H No smear - benign hysterectomy

And one or more of the following:

- 4KA Vaginal vault smear result
- 4KA1 Vaginal vault smear negative
- 4KA2 Vaginal vault smear-inadequate
- 4KA3 Vaginal vault smear-atrophic
- 4KA4 Vaginal vault smear abnormal
- 4KAZ Vaginal vault smear NOS

Women who have had just one vaginal vault smear - Scottish Cervical Cytology Targets (INPS)

Women eligible for target with one of the following READ codes:

- 4KA Vaginal vault smear result
- 4KA1 Vaginal vault smear negative
- 4KA2 Vaginal vault smear-inadequate
- 4KA3 Vaginal vault smear-atrophic
- 4KA4 Vaginal vault smear abnormal
- 4KAZ Vaginal vault smear NOS

Women who have had more than one vaginal vault smear - Scottish Cervical Cytology Targets (INPS)

Women eligible for target with one or more of the following READ codes:

- 4KA Vaginal vault smear result
- 4KA1 Vaginal vault smear negative
- 4KA2 Vaginal vault smear-inadequate
- 4KA3 Vaginal vault smear-atrophic
- 4KA4 Vaginal vault smear abnormal
- 4KAZ Vaginal vault smear NOS
