# Osteoporosis for Scottish DES 2011-12

## Female patients over 60 years

### Female patients over 60 with a fragility fracture recorded since 1 April 2011

Women over 60

With fragility fracture recorded since 1 April 2011

N331N Fragility fracture

14G6 H/O: Fragility fracture

N331M Fragility fracture due to unspecified osteoporosis

### Female patients over 60 with NO fragility fracture ever

Women over 60

With No record ever of fragility fracture recorded:

N331N Fragility fracture

14G6 H/O: Fragility fracture

N331M Fragility fracture due to unspecified osteoporosis

### Female patients over 60 with a fragility fracture since 1 April 2011 with a DEXA scan or referral in last 5 years

Women over 60

With fragility fracture recorded since 1 April 2011

N331N Fragility fracture

14G6 H/O: Fragility fracture

N331M Fragility fracture due to unspecified osteoporosis

And with a Dexa scan or referral in the last 5 years:

58E. Dual energy X-ray photo absorptiometry

58F. Bone density scan

8HQA Referral for DXA scan of hip and spine

8HQB Referral for DEXA scan of forearm

8HQC Referral for DXA scan of heel

**Female patients over 60 with a fragility fracture since 1 April 2011 with a DEXA scan or referral in last 5 years**

Women over 60

With fragility fracture recorded since 1 April 2011

N331N Fragility fracture

14G6 H/O: Fragility fracture

N331M Fragility fracture due to unspecified osteoporosis

And with NO DEXA scan or referral in the last 5 years:

**Female patients over 60 with DEXA scan or referral more than 5 years ago that are eligible for another scan or referral**

Women over 60

And with a DEXA scan or referral recorded more than 5 years ago:

58E. Dual energy X-ray photo absorptiometry

58F. Bone density scan

8HQA Referral for DEXA scan of hip and spine

8HQB Referral for DEXA scan of forearm

8HQC Referral for DEXA scan of heel

And are eligible for another scan or referral

**Female patients over 60 with a fragility fracture since 1 April 2011 with a positive diagnosis of osteoporosis explicitly confirmed by DEXA scan**

Women over 60

With fragility fracture recorded since 1 April 2011

N331N Fragility fracture

14G6 H/O: Fragility fracture

N331M Fragility fracture due to unspecified osteoporosis

With a positive diagnosis of osteoporosis:

N330 Osteoporosis

Confirmed with a DEXA scan or referral:

58E. Dual energy X-ray photo absorptiometry

58F. Bone density scan

8HQA Referral for DEXA scan of hip and spine

8HQB Referral for DEXA scan of forearm

8HQC Referral for DEXA scan of heel

**Female patients over 60 with a fragility fracture since 1 April 2011 with NO positive diagnosis of osteoporosis but an osteoporotic DEXA scan**

Women over 60

With fragility fracture recorded since 1 April 2011

N331N Fragility fracture

14G6 H/O: Fragility fracture

N331M Fragility fracture due to unspecified osteoporosis

With NO positive diagnosis of osteoporosis, ie no record of the following:

N330 Osteoporosis

But with an osteoporotic Dexa scan:

58E4 Forearm DXA scan result osteoporotic

58EA Heel DXA scan result osteoporotic

58EG Hip DXA scan result osteoporotic

58EM Lumbar DXA scan result osteoporotic

**Female patients over 60 with a fragility fracture since 1 April 2011 with a positive diagnosis of osteoporosis but NO confirmation of osteoporotic DEXA scan**

Women over 60

With fragility fracture recorded since 1 April 2011

N331N Fragility fracture

14G6 H/O: Fragility fracture

N331M Fragility fracture due to unspecified osteoporosis

With a positive diagnosis of osteoporosis:

N330 Osteoporosis

But NO record of an osteoporotic Dexa scan with any of the following:

58E4 Forearm DXA scan result osteoporotic

58EA Heel DXA scan result osteoporotic

58EG Hip DXA scan result osteoporotic

58EM Lumbar DXA scan result osteoporotic

**Female patients over 60 with a fragility fracture since 1 April 2011 with bone sparing treatment in the last 12 months**

Women over 60

With fragility fracture recorded since 1 April 2011

N331N Fragility fracture

14G6 H/O: Fragility fracture

N331M Fragility fracture due to unspecified osteoporosis

With bone sparing treatment in the last 12 months:

Drug codes fo1, fo3, fo4, fo5, fo6, fo8, fv1, fu3, fu5,

and

9kj0 Bone sparing drug treatment offered for osteoporosis - ESA

**Female patients over 60 with a fragility fracture since 1 April 2011 with NO bone sparing treatment in the last 12 months**

Women over 60

With fragility fracture recorded since 1 April 2011

N331N Fragility fracture

14G6 H/O: Fragility fracture

N331M Fragility fracture due to unspecified osteoporosis

With NO bone sparing treatment in the last 12 months:
